Seniors Health

- Create a Seniors Health Program at SHN.

- Support seniors during their hospital journey by recognizing their specific health, psychological and environmental needs.

- Create a dedicated space to support seniors care in the emergency departments.

Family Medicine

TRANSFORMING CARE

PLANNING CLINICAL SERVICES FOR SCARBOROUGH

SHN
SCARBOROUGH HEALTH NETWORK

- Strengthen partnerships between SHN and primary care practitioners.

- Support the implementation of the Seamless Care Optimizing Patient Experience (SCOPE) program to facilitate integration with the hospital, engaging SHN specialists to enhance access for family physicians.

- Establish an innovation hub for global health, diversity and health equity.

- Be an active member of the Palliative Care Community Team in a palliative care system that meets needs of families and community family physicians.

Paediatrics

Make all Emergency Departments kid-friendly.

Grow transitional-aged youth mental health services (aged 18-25).

Expand specialized paediatric care for the most vulnerable children.
