KNOW THE SIGNS OF A STROKE

F
**FACE
DROOPING**

Does one side of your face droop when you try to smile?

A
**ARM
WEAKNESS**

When you try to lift both arms, does one arm drift back down?

S
**SPEECH
DIFFICULTY**

When you talk, is your speech slurred or does it sound strange?

T
**IME TO
CALL 911**

If you are experiencing any of these signs, call 9-1-1 right away!

EMERGENCY SERVICES will get you to the right place for the care you need.

- Hyperacute stroke patients will go to a regional stroke centre
- Acute stroke patients in Scarborough will go to the Stroke Centre of Excellence at SHN's Birchmount hospital (effective April 8, 2020)
