

Breast Assessment Referral

IMMEDIATE RESPONSE REQUIRED-ABNORMAL BREAST IMAGING REPORT

To:	From: Breast Clinic
Recipient Fax:	Sender Fax: 416-284-3116
Recipients Phone:	Senders Phone: 416-284-8131 Ext 5329
Patient Name:	DOB:
Health Card #	Date: Wednesday, December 6, 2023
Patient Home#	Patient Cell #

Your patient has a suspicious finding (BIRADS 4 & 5) on her/his breast imaging report sent with this document.

Please indicate how you would like to expedite the follow-up;

1. Direct to biopsy, follow-up with surgeon to review results.

Is patient taking antiplatelet, anti-inflammatory, or anticoagulation medication? Yes No

Current guidelines do not require patients to withhold their anticoagulant/antiplatelet medication prior to the biopsy.

Please note: Patients taking Warfarin should have a target INR \leq 3.0. Consider bridging for high thrombosis risk cases.

2. A pre-biopsy surgical consultation is required.

Kindly indicate your preference:

- First available breast surgeon at Centenary Hospital
- First available breast surgeon at General/Birchmount Hospital
- Patient's previous breast surgeon _____
- Specified breast surgeon _____

The pathology results will be discussed by the breast surgeon with the patient; you will be copied on all reports.

Please fax completed referral back to:

Fax: 416-284-3116
 Tel: 416-284-8131 ext.5329
 Contact: Assessment Secretary

If you have any questions or concerns, please contact:

- Michelle Jones at 416-284-8131 ext.5264
- Shirley Murphy 416-438-2911 ext 6614
